Dear David

**Re: Detex Blox and Provoke**

Thank you for your email dated 12 May 2008 requesting approval to use above equipment at export registered establishments.

The Detex Blox and Provoke have been assessed to be suitable for use inside export registered establishments.

Please note that the acceptance by AQIS must not be construed as a recommendation of your product or of any claims that may be made of it and continued acceptance of the product for use within meat establishments would be subject to satisfactory performance under operating conditions.

Yours faithfully
